Yes – let's talk first. Finance should add these for you. I would like to give you a bit more background.

**Subject:** Account String Choices

## Hi Andrea

Between this and another site I'm quickly learning how complex account code choices are. Do you have a suggestion for an ECEJ person who can just figure out the right codes at each site for me? Or should I just keep muddling through with the team and TMS?

Thanks.

## Chuck

Hi Chuck. See Mike's response below. BTW, I suggest that the account code be updated since we usually stop charging to PA/SI and start charging to PRP RI/FS at this point. So, I recommend this be updated to be BD, which is PRP RI/FS, rather than QB. But since QB seems to be what he is using, perhaps we should stick with it for now. Perhaps you or the

enforcement specialist can suggest using the new code? I'm guessing Mike has just kept using the code he was given by the Site Assessment Manager.

We can discuss the PRP question he had below, but I believe this is an legitimate charge. Please let me know if you disagree. I don't know if you are familiar with Superfund account codes, but he isn't currently charging to a special account, so he must be referring to including our charges when there is oversight billing to the RP. (The "T" is what tells me this.)

Hi Fran,

Here is the number, Not sure that it should be billed to PRP since this is our (EPA) undertaking? At least at this time.

See you, Mike

Hi Mike. Would you please tell us what People Plus account code to use for yesterday's call? I'm a bit confused between the various Anaconda's listed.

Is it 2017 T 08L 303DD2 A882BD00?

Thank you!

Fran
